REASONS FOR ALLOWANCE

Claims 1-5, 8-12 and 15-21 are allowed. The following is an examiner's statement of reasons for allowance: referring to claims 1 and 12, the specific limitation of one end of the main body along the longitudinal direction coupled to the support portion and corresponding one end of the support portion are formed into round shape, and the first axis is located at substantially the center of the rounded portion, wherein the end of the rounded portion of the support portion has a slight protrusion and arranged thereon an operation unit that controls displaying data on the display panel, and wherein the operation unit is biased toward the center of the rotatable range, and is returned to the center when released from a finger after being pivoted slightly. These limitations, in combination with the remaining elements are not taught or suggested in the prior art references. Claims 2-5 and 8-11 depend, either directly or indirectly, from claim 1 and are therefore allowed for at least the same reasons. Likewise, claims 15-21 depend, either directly or indirectly, from claim 12 and are allowed for at least the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
